

FROM VISION TO ACTION

OUR NORTH STAR FOCUS FOR THE NEXT 24 MONTHS

Over the next twenty-four months, Uplift Northwest will focus on assessing and refining our Missions and Business Enterprise programs, maintaining stability through a critical transition, and advancing the Beacon of Hope Capital Campaign to secure long-term financial sustainability.

PRIORITY 1:

Increase Impact and Ensure Financial Sustainability of Business Enterprise and Missions Programs

Align resources with impact; develop key performance indicators to measure success.

PRIORITY 2:

Ensure the Stability and Continuity of Operations During transition

Maintain continuity of services and organizational stability during programmatic transition.

PRIORITY 3:

Advance the Beacon of Hope Capital Campaign

Advance the capital campaign to secure long-term financial sustainability and support organizational growth..

These priorities are interconnected and are not listed in order of importance. Together, these efforts will expand access to meaningful employment as a pathway to stability and self-sufficiency, while positioning the organization for its next phase of growth.

By aligning our internal Accounting / Operations, Business Enterprise, Development and Missions teams on program refinement, operational stability, and resource development, this work advances our vision of a thriving Puget Sound community where everyone has the opportunity to achieve self-sufficiency.
